

NOTIFICATION OF HAZARDOUS PROJECT

This form must be submitted to the LAP office at least one week prior to study initiation. If special materials (bedding, food, disposal arrangements) are required, additional lead time may be necessary.

IACUC Protocol Number: _____

Investigator: _____

Additional Personnel: _____

Hazardous
Agent(s): _____

Start Date:

Last Hazard Use Date:

Date Cages Become Nonhazardous: _____

All research staff should be familiar all aspects of the protocol and hazard handling in particular. If this is the first use of this specific hazard by the investigator, then a meeting with vivarium staff should be arranged to discuss the vivarium SOPs that pertain to the hazard to ensure understanding and agreement.
